

FISCAL NOTE

SB 828 - HB 1795

April 7, 2003

SUMMARY OF BILL: Provides guaranty fund coverage on excess insurance policies for workers' compensation pools comprised of political subdivisions and authorities.

ESTIMATED FISCAL IMPACT:

Decrease State Revenues - Exceeds \$100,000

Estimate assumes that there will be an increase in the amount paid from the guaranty association under the provisions of this bill. A greater amount paid from the association will result in an increase in the amount that insurance companies must pay to the association. Any monies paid to the association by an insurance company are taken as a credit against the premium tax that insurance companies must pay. Such amount cannot be determined but based on past losses it is estimated that there will be an average annual decrease in revenues exceeding \$100,000.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
